Extra-hard bits

Extra-hard bits for low and uniformly increasing torques

WITTE extra-hard industrial bits are particularly well suited to fastener tightening at low, but steadily increasing torques during which large amounts of wear & tear occur, such as during cam-out. The special hardness of 62-64 HRC guarantees long service lifetimes.

PH
for PHILLIPS recess screws

Extra hard
DIN ISO1173

ITEM NO.	+	mm	1/4" drive
27120	PH 1	25	C6.3
27121	PH 2	25	C6.3
27122	PH 3	25	C6.3

Extra hard, truncated tip
DIN ISO1173

ITEM NO.	+	mm	1/4" drive
27123	PH 2	25	C6.3

PZ
for POZIDRIV screws

Extra hard
DIN ISO1173

ITEM NO.	+	mm	1/4" drive
27245	PZ 1	25	C6.3
27246	PZ 2	25	C6.3
27247	PZ 3	25	C6.3

Extra hard, truncated tip
DIN ISO1173

ITEM NO.	+	mm	1/4" drive
